PROJECT NAME: Consultancy Services for the Design & Supervision of Jamaica Greenhouse Growers Benevolent Society (Manchester & St. Elizabeth)

PROCUREMENT METHODOLOGY: National Competitive Bidding

SELECTION METHOD: Consultant Qualification Selection (CQS) Method

SCOPE OF CONTRACT:

The project will construct nine greenhouses and refurbish two existing greenhouses at locations outlined below. Each greenhouse will include rainwater harvesting and irrigation systems. Additionally, equipment and agronomic inputs such as seeds, fertilizers, chemicals will be initially provided to help boost production.

The proposed scope of work includes, but is not limited to, the following:

- Assess, design and detail nine greenhouses (modified shade houses) approximately 3000 sq. ft. with rainwater harvesting and bio-secure features, such as a vestibule (small entrance room leading into the larger space for production) with a foot bath. The greenhouses must be able to facilitate the installation of drip irrigation and connections to external fertigation and water tanks.
- Assess, detail and design the rehabilitation of two greenhouses (3000 sq. ft).
- Assess, detail and design any other aspects of the project to make it functional.
